Latest Marshal Updates:

Oct 7, 2016: The variable marshal has been migrated to a new server, and marshal data has been updated through mid-August 2016. Mar 29, 2016: Marshal data has now been updated through March 20, 2016, and the photometry problems should be fixed.

- KeckI+LRIS (2017-07-21 2017-07-22) PTF Galactic Classification - Prince

Latest Saved Sources

The PTF Galactic Marshal

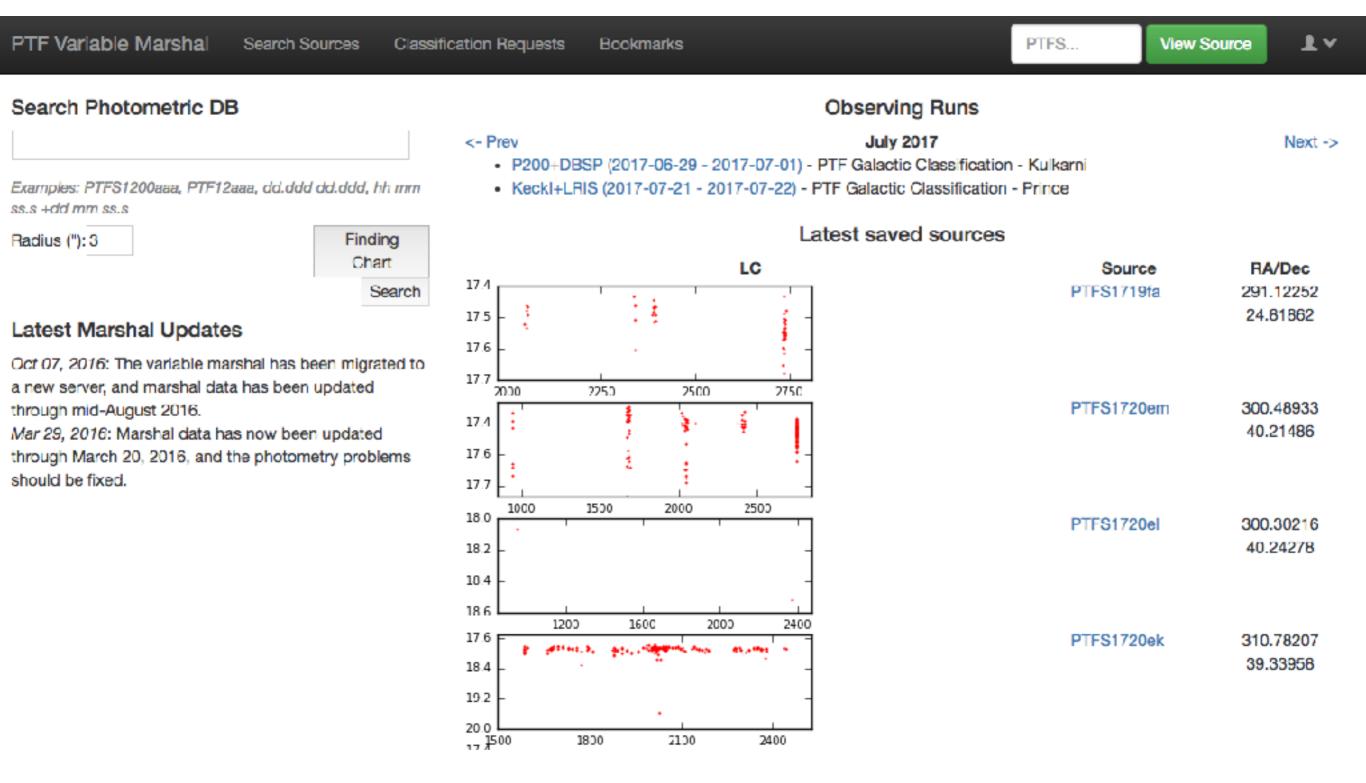

- Allows for a quick look at the data
- Some tools are available e.g.
 - Commenting, simple lomb-scargle
 - PanSTARRS, SDSS, WISE colors
 - Links to other catalogs

If we have a fairy godmother what would be our wish

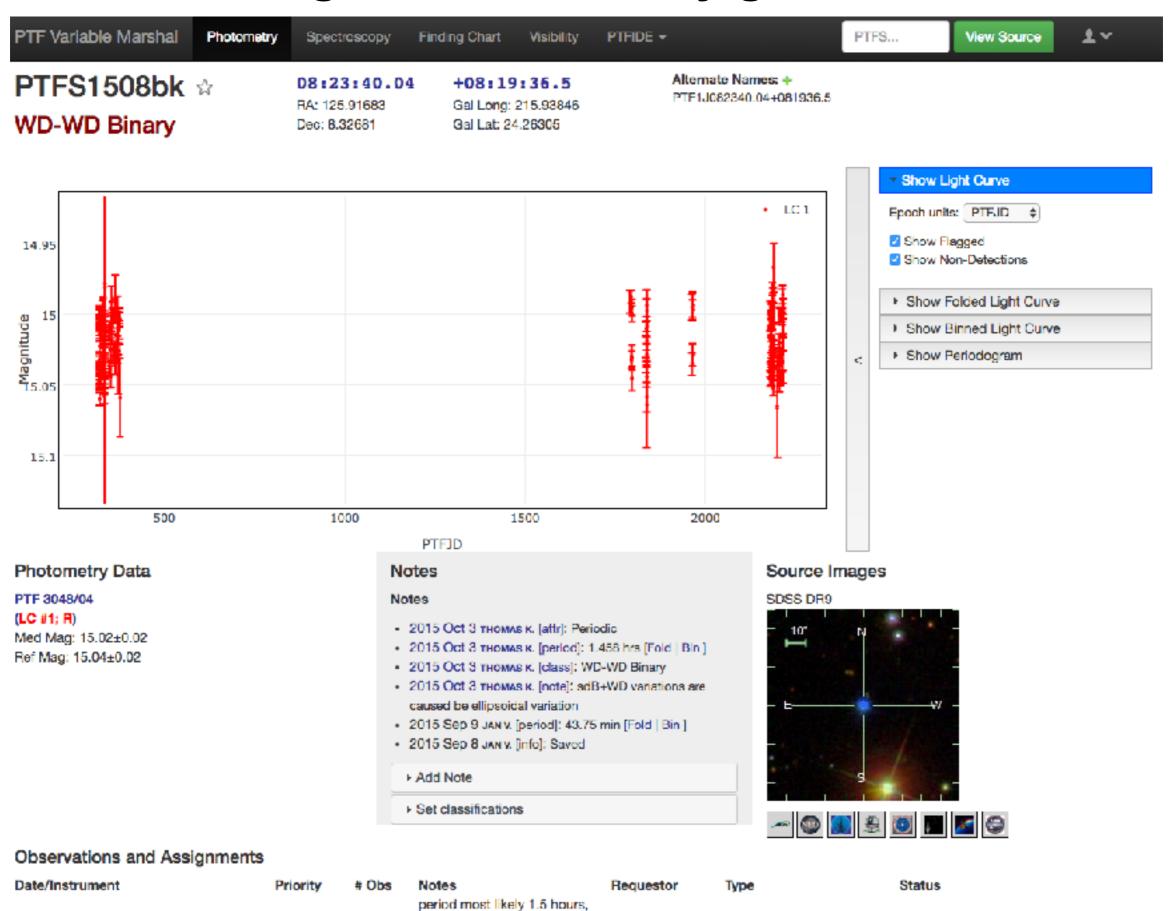

- A more sophisticated period finding algorithm which automatically finds the best period and allows to fold the data
- an URL link to download the lightcurve (instead of having to click a button)
- show ZTF, PTF and CRTS lightcurves all in the same window
- show object in a color-color diagram e.g.:
 - u-g vs. g-r
 - proper motion vs. color
- show all available measurements for the object as function of wavelength (Galex, SDSS, PS, 2MASS, WISE, PTF-Halpha?)
 - -> Spectral Energy Distribution

Planing without the fairy godmother

- working on a upgrade Galactic Marshal
 - full conversion into python
 - slightly different layout

Planing without the fairy godmother

lightcurve dominated by
